## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1, 7, and 11 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claim 1, "testing a status indicator to determine if the DLPDU is currently active; and associating the measurement data with the DLPDU if the status indicator is true."

As in claim 7, "associating the received DLPDU object with the measurement data if a currently active attribute is true after the measurement data is taken."

As in claim 11, "associating the measurement data with the data from the memory queue received if the currently active attribute associated with the data from the queue is true at the time of processing."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
